

2025 Cruising and Early Reservations to Think About

While the BYC Cruise Committee is not ready to start taking registration for the cruises yet – that will start in March – some of the marinas and boatyards where we will be staying have already started taking reservations, and many of these places will sell out. If BYC members plan to join a cruise and they want to be sure to get a mooring, they might want to visit Dockwa now and make their reservations. Then again in most places you can also anchor if needed so there are lots of good options if it turns out you don't want to reserve a mooring in any particular harbor! Keep an eye on the cruising section of the club website for more details as we'll be updating it frequently as plans solidify.
